- Exceptional Performance and Reliability
- Best Customer Retention Rate
- Responsible and Trained Staff
- Authorised Domain Name Reseller – supporting all major domains including .MU Mauritian domain.

## Our Mission

At Mauritius.biz Hosting, our mission is to deliver business class hosting, domain name registration, search engine optimisation (SEO) and cloud services. We provide top notch service - what we call "Full Service Hosting." Full Service Hosting means that we take care of all the details for you, from domain name registration or transfer, right through to a live website. We cater to clients who do not have the time or the inclination to try and learn all of the nuances of setting up and managing a website, but who need a website that will produce results. We specialize in taking our clients through the process right from start to finish, and we look after all of the details for you.

## Our Tomorrow

At Mauritius.biz Hosting we believed in positive thinking and we know we can make it. We believed in how well, not how far. Many companies that were there before us, are not any where near us now. We believe in quality and we spend money to get quality. In 2022, we celebrate over 23 years of near 100% sever uptime, 24/7 days customer support and full customer satisfaction. Today we are here overtaking the remaining, tomorrow we shall still be at the foremost front; so that when you mention our name: Mauritius.biz Hosting - every body will tell you we know them!
